Rates can vary according to individual loan situations. Rates and lock periods are subject to change. The payment amount may be higher if escrows for property taxes, homeowner's insurance, or mortgage insurance are applicable. APR = Annual Percentage Rate.

Adjustable Rate Mortgages (ARMs) begin with a fixed rate and adjust upward or downward after the initial fixed term. ARM products contain two numbers. The first number refers to the number of years the interest rate at closing remains fixed. The second number is the number of years between interest rate changes after the initial fixed term expires.
